

NCPCR timely intervention helps an abused child to come out of trauma and resume her Schooling

A complaint was received in NCPCR on POCSO E-box in December 2016 about sexual abuse of a minor girl by her biological father in Haryana. Immediately, a team of NCPCR proceeded to the district concerned and met the victim girl and her mother. After meeting them the NCPCR directed the District Administration to lodge a FIR in the case. The lady members of NCPCR team counseled the victim girl so as to enable her to come out of the trauma and resume her schooling. The culprit was ultimately arrested. NCPCR has remained in touch with the child victim and kept on counseling her. The child has ultimately resumed her schooling at a neighborhood school.

The timely intervention of NCPCR, thus, a not only led to the arrest of the culprit but also helped the victim child to come out of trauma and lead a normal life of a student of her age.
